I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Restrictions on compounded prescriptions
across state lines limits the availability of
specialized medicine to people, usually at
a more economical price. To pass this
proposal would put many people in
jeopardy. Personally I have used compounded
medicine for several years, they are
based on my needs + desire for natural
products not available at regular pharmacies
